

## **FELDON RESIDENTS AGAINST WIND TURBINES (FRAWT)**

*Stop the **Starbold** Wind Farm Application near Knightcote &  
Bishops Itchington in South Warwickshire*

### **PRESS RELEASE: For Immediate Release**

## **Stratford District Council rejects application to erect an Anemometer Mast between Knightcote and Bishops Itchington**

Residents of the Vale of Feldon, and their action group FRAWT, are delighted that the Planning Committee of Stratford District Council has rejected the application to erect a 60 metre high anemometer Mast between Knightcote and Bishops Itchington.

The views of the many local residents and visitors to Burton Dassett hills, who opposed the planning application, have been taken into account, as well as the arguments put forward by John Maples M.P. and Councillors Chris Kettle, Chairman of Bishops Itchington Parish Council and Chris Williams of Stratford District Council.

Feldon residents would like to thank everyone who took the initiative to oppose this planning application by writing to the Council and attending the Planning Committee meeting.

Resolute and determined action by local people has stopped this mast being erected. This in turn has prevented 125 metre high wind turbines being built within 500 metres of people's homes and has preserved the beautiful vista from the Burton Dassett hills for the enjoyment of the 60,000 visitors and people of Warwickshire.

- ENDS – (25 November 2009)

### **NOTES TO EDITORS**

1. FRAWT is a resident's campaign group formed from the villages of Northend, Gaydon, Bishops Itchington, Temple Herdewycke, Knightcote and Wormleighton.
